Education

Doctor of Medicine (MD) Candidate
2023 – 2027 (expected)
University of British Columbia, Vancouver, BC

Master of Science, Biochemistry
2021 – 2023
McGill University, Montréal, QC · Supervisor: Dr. Morag Park

- Thesis: Targeting chemotherapy-induced senescence escape to reduce breast cancer cell survival

Bachelor of Science, Physiology and Pharmacology
2017 – 2021
University of Toronto, Toronto, ON

- 3.98 cumulative GPA
- Minor in Economics. Additional coursework in Python, bioinformatics, and statistics

Awards & scholarships

ESCRS Bursary Award
2026
European Society of Cataract & Refractive Surgeons (ESCRS) Congress

For the highest-scoring abstracts

Conquer Cancer Merit Award
2026
American Society of Clinical Oncology (ASCO) Annual Meeting

One of 141 top-ranking abstracts among over 8,500

Conquer Cancer Merit Award
2026
ASCO Quality Care Symposium

One of 48 top-ranking abstracts among over 900

Summer Student Research Program Award
2024
University of British Columbia Faculty of Medicine

Undergraduate Student Research Award
2021
Natural Sciences and Engineering Research Council of Canada (NSERC)

Undergraduate Scholarships
2018 – 2021
University of Toronto

Dr. James A. & Connie P. Dickson Scholarship (2020, 2021)

Alen Milne McCombie Scholarship (2019)

Mary McWhorter Scholarship (2018)

Research experiences

OPHTHALMOLOGY

Acute Angle-Closure Glaucoma (ACG) & Non-Ophthalmic Anticholinergics

Feb 2026 – present

Supervisors: Dr. Vincent Tony Wong, Dr. Rob Pintwala

- Leading a sex-stratified disproportionality analysis of ACG reporting in patients on non-ophthalmic anticholinergics, including sensitivity analyses in R

Intraocular Hemorrhage & Antiplatelet Use

Feb 2026 – present

Supervisors: Dr. Vincent Tony Wong, Dr. Rob Pintwala

- Integrating disproportionality signals with existing evidence to raise clinician awareness of intraocular bleeding risk, especially with clopidogrel and aspirin, independent of anticoagulant use

Asymmetric Intraocular Pressure Elevation

Sept 2026 – present

Supervisors: Dr. Jonathan Micieli, Dr. Angela Zhang

- Wrote up a case of markedly asymmetric intraocular pressure elevation from and persisting after surgical resection of a pituitary microadenoma, encountered during a clinical elective

Taxane Chemotherapy-Associated Ocular Adverse Events

Sept 2025 – Aug 2026

Supervisors: Dr. Rob Pintwala, Dr. Ahmed Al-Ghoul

- Screened 258 ophthalmic outcomes for disproportionality signals using reporting odds ratios, chi-square, and the Bayesian information component (IC_{025})
- Critically evaluated gaps in evidence, sources of bias, and study limitations for a structured literature review to support rigorous interpretation of significant FAERS signals

Ophthalmic Surgical Wait Times

Apr 2026 – Jul 2026

Supervisor: Dr. Eduardo Navajas

- Investigated regional trends in ophthalmic surgical wait times across BC, with an emphasis on disparities in access for Indigenous communities
- Advocated for resource allocation to support more ophthalmic care in Indigenous communities

Intraocular Malignancy

Jun 2026 – present

- Collaborating with two medical students to screen 5,561 studies for a systematic review, resolving discrepancies by delegating tasks and communicating our decision-making process clearly

Visual Outcomes after Craniopharyngioma Surgery

Aug 2026 – present

- Screening 1,818 studies to determine predictors of visual improvement and deterioration after craniopharyngioma surgery; synthesizing findings for a systematic review

ONCOLOGY CARE

Social Isolation & Cancer Survival

Sept 2025 – Jul 2026

Supervisor: Dr. John-Jose Nunez

- Recent cancer diagnosis in my mother motivated me to research the effects of psychosocial factors such as the many dimensions of social isolation on cancer survival
- Led an analysis of a population cohort of 45,651 patients using Python; found that living alone, no regular social contact, and depressive or anxiety symptoms significantly increase mortality in cancer

Thymoma Survival & Recurrence

Oct 2025 – Sept 2026

Supervisor: Dr. Siavash Atrchian

- Using competing risks analysis, estimated the long-term survival and recurrence of thymoma in a population-based cohort in BC followed for up to 21 years

Global Radiotherapy Utilization

Sept 2025 – Jun 2026

Supervisor: Dr. Jessica Chan

- Screened 3,948 studies for a systematic review and meta-analysis comparing evidence-based radiotherapy need with real-world utilization
- Extracting detailed information to characterize global inequities in access to cancer care

Methadone for Breakthrough Neuropathic Cancer Pain

Nov 2024 – Sept 2026

Supervisor: Dr. Mathieos Belayneh

- Led a standardized chart review of 706 patients; identified methadone as the second-most common analgesic in BC for breakthrough neuropathic cancer pain
- Data supported continued use of methadone as there were no documented severe adverse events

Rectal Squamous Cell Carcinoma (rSCC) in BC

Apr 2024 – Jan 2026

Supervisor: Dr. Jeffrey Sulpher

- Collaborated with another medical student to analyze rSCC treatment patterns and outcomes in BC by standardizing data extraction and meeting regularly to resolve chart-review conflicts

Chemoprevention Strategies in Transplant Recipients

Dec 2025 – Jul 2026

Supervisor: Dr. Fatemeh Jafarian

- Investigated strategies associated with reduced cutaneous malignancy in solid organ transplant recipients
- Coordinated literature review and data extraction across a team of 5 medical students, delegating individual tasks to ensure smooth synthesis of evidence

SURGERY

Surgical Technique & Laparoscopic Right Hemicolectomy Outcomes

Feb 2024 – May 2026

Supervisor: Dr. Sharadh Sampath

- Led a standardized review of 203 patient charts; examined associations of anastomotic technique and specimen-extraction site with short-term postoperative ileus and long-term incisional hernia

Artificial Intelligence in Global Trauma Care
Mar 2026 – Jul 2026

Supervisor: Dr. Morad Hameed

- Spearheaded screening and data extraction of 1,046 studies for a systematic review of research priorities and gaps in artificial intelligence for trauma care in low-income countries

Determinants of Digit Survival after Replantation
Sept 2024 – Aug 2026

Supervisor: Dr. David Tang

- Detailed chart review and analyses of all digital replantation patients in BC over 10 years revealed that injury topography and postoperative complications are predictive of digit outcomes

BASIC & COMPUTATIONAL SCIENCE

Microglia in Neurodegeneration
Sept 2019 – Jun 2021

Supervisor: Dr. Julien Muffat

- Engineered doxycycline-inducible stem-cell models of microglial function using molecular cloning and CRISPR gene targeting, modelling mutant microglia with neurons

Cytokines in Acute Myeloid Leukemia
May 2019 – Sept 2020

Supervisor: Dr. Connie Eaves

- Investigated cytokine-driven transformation to acute myeloid leukemia in vitro and in vivo

Atherosclerosis COBWEB Model
Sept 2018 – Apr 2019

Supervisor: Dr. Brad Bass

- Developed 3 software models simulating blood-flow reduction across stages of atherosclerosis

Leadership & outreach

PATIENT ADVOCACY

Founder & Web Developer – Eyelingual
Jul 2026 – present

- Developed and launched Eyelingual, a web-based tool for conducting ophthalmic examinations across a language barrier when live interpreter services are unavailable
- Bridging inequities in access to ophthalmic care by supporting communication with patients who prefer care in a language other than English

Vision Mate – Canadian National Institute for the Blind (CNIB) Foundation
Sept 2025 – present

- Supported a client living with complete vision loss through biweekly home visits
- Built close rapport through companionship and practical assistance — reading mail, running errands, grocery shopping, and accompaniment on outings

Patient Outreach & Interview – Patient Experience Project
Oct 2024 – present

- Co-produced short films with patients sharing their lived experiences of illness and care
- Advocated for and secured their integration into the UBC MD curriculum, to foster a holistic understanding of illness and strengthen empathy for what patients live through

Newcomer Support – Refugee Health Initiative, UBC
Sept 2023 – May 2025

- Organized and delivered annual refugee-health outreach presentations at local community centres
- Provided a safe space and longitudinal support to a refugee family through monthly meetings, holding open discussion of resettlement challenges and adjustment

Client Support – Shelter Movers

Aug 2021 – present

- Worked in teams of 4–5 volunteers to move clients out of homes where they had experienced intimate partner violence, holding trauma-informed conversations where the client wanted them

Events Director – Women's Health Initiative, UBC

Aug 2024 – May 2025

- Designed a trauma-informed pelvic examination training session for medical students and co-led it with a physiotherapist

TEACHING & MENTORSHIP

Educational Exhibit – Orbital Trauma on CT

Feb 2026 – Jul 2026

- Worked with radiologist Dr. Nicolas Murray to develop a systematic checklist that ensures vision-threatening orbital injuries are recognized on trauma imaging; designed the formal exhibit

Sexual & Reproductive Health Program – Nepal Health Education, UBC

Oct 2023 – present

- Spearheaded changes to a sexual and reproductive health (SRH) education programme for adolescents in rural Nepal, based on local educator feedback, so the curriculum is culturally appropriate
- Designed and facilitated the formal programme evaluation; advocated for delivery to early adolescents, where larger health-literacy gains were demonstrated in pre-menstruation females
- Drafted thoroughly researched responses to commonly asked SRH questions

Mentorship & Shadowing Executive – Oncology Interest Group, UBC

Sept 2024 – present

- Coordinated and facilitated numerous oncologist-led mentorship and clinical shadowing placements for other medical students

Cultural Competency Training – Global Health Initiative, UBC

Oct 2024 – Jun 2025

- Facilitated sessions engaging other medical students in conversations on cultural humility before their global health projects, drawing on what I took away from my own visit to rural Nepal

Skills & memberships

SKILLS AND LANGUAGES

Statistical analysis	R, Python, SPSS; survival analysis (Kaplan–Meier, Cox proportional hazards, competing risks); FDA Adverse Event Reporting System (FAERS) disproportionality
Languages	English; Mandarin Chinese (native speaker)
Interests	Scuba diving — PADI Advanced Open Water, certified in Koh Tao, Thailand Running — completed half-marathons and the Vancouver Sun Run Karate — 20-minute skit with Karotid Chop, UBC's karate club, at the Med Gala

PROFESSIONAL MEMBERSHIPS

Ophthalmology	Association for Research in Vision and Ophthalmology (ARVO) European Society of Cataract & Refractive Surgeons (ESCRS)
Oncology	American Society of Clinical Oncology (ASCO)
